

CERTIFIED ISO 22301:2019 LEAD AUDITOR

www.gsdcouncil.org / marketing@gsdcouncil.org

GSDC's ISO 22301:2019 Lead Auditor or Business Continuity Management Certification exhibits proven knowledge about the key concepts of business continuity, understand the benefits of a business continuity management system and become familiar with the requirements of ISO 22301.

ABOUT CERTIFICATION

GSDC's ISO 22301:2019 Lead Auditor or Business Continuity Management Certification exhibits proven knowledge about the key concepts of business continuity, understand the benefits of a business continuity management system and become familiar with the requirements of ISO 22301. Continuity management is all about the reaction to a natural disaster or cyber attack. It begins with the policies and procedures developed, tested, and used when an incident occurs. The policy defines the program's scope, key parties, and management structure. It needs to describe the necessity of the business continuity criticality of governance in this phase. Business continuity management provides you with a knowledge of the roots of the creation and modification of a business continuity plan checklist and the identification of the team responsible for implementation. In a nutshell, Business Continuity Management Certification explains the business needs, revenue-generating components of the company, external-facing aspects, or some other subset of the total organization.
