

CERTIFIED PRACTITIONER IN BUSINESS ANALYSIS

www.gsdcouncil.org / info@gsdcouncil.org

GSDC's Practitioner Certified in Business Analysis qualification gives candidates an understanding of standard business analysis practices and techniques in depth.

ABOUT CERTIFICATION

After earning this qualification, individuals will be able to drive their organization towards success in this rapidly changing business environment.

The syllabus and content of this certification are based on years of best practices and trials and errors from hundreds of business analysis experts working across all types of industries.

A PCBA professional will acquire a higher level of understanding to design a full proof business model with improved quality and speed of analysis.

OBJECTIVES

The objective of Practitioner Certified in Business Analysis Certification is to share a deep understanding of:

- Understanding the role & competencies of a Business Analyst. Giving learners a full understanding of advanced modeling techniques.
- Learn how to develop an Action Plan to improve your BA skills or environment.
- Learners will understand categories, analyze and manage stakeholders

Our Accreditation:

The Global Skill Development Council (GSDC) is the leading third-party, Vendor-neutral, international credentialing and certification organization. The Global Skill Development Council (GSDC) is proud to be ANSI Accredited Member. The American National Standards Institute (ANSI) is a private, non-profit organization that administers and coordinates the U.S. voluntary standards and conformity assessment system.
